

How we helped a leading Financial giant through SLII® leadership program.

A renowned Financial service provider was looking for leadership training to upskill their managers in order to better navigate professional challenges. After all, only an empowered employee can bring results.

How did we help?

Blanchard® proposed a 6-month SLII® leadership journey with a robust master phase to drive sustainability and reinforcement with 4 trainer connects and multiple touchpoints with the participants.

Benefits experienced by the client:

Wonderful feedback session, positive learning retention, and application of an upward trend in the behavioral shift in the 3 core skills of SLII®

1. Goal setting

2. Diagnosing

3. Matching

Results Achieved:

The organization is working towards making SLII® a language, some wonderful success stories received from the participants emphasizing how SLII® has helped them not only in their professional life but also in their personal life, stories about how they have become better managers and better human beings.
